

EFFECTIVE JAN. 1, 1978

This price list is offered as a service to the sincere hobbyist and collector. The many years of collecting, research, cataloging, and especially the loving, patient care to get our Cryptocorynes to bloom for identification make some of these plants actually priceless.

Our collection of Echinodorus is unrivalled. Over the years we have tested many species and offer here only these we know make good aquarium plants.

All plants are cultivated in tanks on our own property and given reasonable care will adapt to normal aquarium conditions.

We are constantly researching new plants. The cost of this research is incalculable but we try to keep our prices as attractive as possible consistent with their variety and the cost of being leading specialists in the field.

TERMS FOR PURCHASE: All orders are handled personally by myself. Shipments are by Air Mail and are delivered to your door. We do not retail in the State of Florida. MINIMUM PLANT ORDER IS \$20.00. Enclose \$3.00 for postage and custom packaging. Enclose certified check or money order with your order for immediate mailing otherwise allow up to four weeks for a personal check to clear before your order is filled. If you require labeling of plants enclose one dollar for this service. Canadian customers please send U.S. currency and include an extra dollar for postage to Canada. If we should be temporarily out of an item, we will substitute plants of equal or greater value.

Sword Plants (Echinodorus)

E. cordifolius (Radicans) very broad leaves 8"-14"	3.00
E. humilis - African chain sword	2 for 2.25
E. magdalenensis (Dwarf Chain Sword) 4"-5"	3 for 2.00, 6 for 3.50
E. martii (Ruffled Sword) - medium 8"-12"	2.50
large 12"-15"	5.00
E. opacus-small plant, tough dark green leaves 5"-7"	5.00
E. paniculatus-narrow leaf Amazon 10"-15"	5.00
E. paniculatus var. rangerii-the original and best broad leaf Amazon Sword-medium large	2.50
large	5.00
E. paraguayensis - after July 1, 1978	6.00
E. peruensis - small	3 for 4.00
medium	2.25
E. porto alegre-small plant, dark green tough spoon shaped leaves 4"-7"	5.00
E. rubra - medium 8"-12"	2.50
E. rubra osiris-super species-many long, broad leaves, short stems, outstanding show plant 12"-15"	6.00
E. subulatus - after July 1, 1978	4.00
E. tenellus - small, narrow 2"-5"	3 for 2.00, 6 for 3.50
E. undulatus-many dark green undulating leaves 8"-12"	10.00
E. williamensis	2 for 1.75
E. xingu-dwarf chain sword 2"-4"	3 for 2.50

Bunched Plants

Alternanthera sessilis - red bog plant	2 for 1.50
Alternanthera lilacina rich red color	2.00
Ambulia	2 for 2.25
Cabomba	2 for 2.25
Didiplis diandra	2.00
Hygrophila polysperma	2 for 2.25, 6 for 4.00
Ludwigia arcuata - needle leaf	2 for 2.25, 6 for 4.00
Lysimachia nummularia	2 for 2.25, 6 for 4.00
Rotala rotundifolia	2 for 2.25, 6 for 4.00

Floating Plants

Ceratopteris cornuta (Water Fern)	2 for 2.25
Limnobium spongia (floating hearts)	3 for 1.75
Limnobium stoloniferum (pygmy floating hearts)	3 for 1.75

Other Decorative Plants

Acorus gramineus	1.50
Acorus gramineus (variegated) - striped Japanese rush 6"-12"	1.50
Acorus pusillus 5"-6"	3 for 2.50
Anubias afzellii - dark green pointed leaves 10"-18"	8.00
Anubias barterii - arrow shaped leaves 6"-10"	4.00
Anubias congensis - 10"-18"	8.00
Anubias lanceolata - 12"-24" grows very large	8.00
Anubias lanceolata - smaller variety 10"-12"	8.00
Anubias nana - smallest Anubias, 4"-5"	10.00
Aponogeton boivinianus - the rarest, most beautiful of all. Bullate, translucent green leaves, Nov.-May	10.00
Aponogeton crispus 6"-12"	2 for 2.25
*Aponogeton longiplumulosus - new, rare, long wavy translucent leaves	10.00
Aponogeton madagascariensis (fenestralis) - lace plant, November-May	7.50

Aponogeton natans (false ulvaceus) - often gets floating leaves	2.00
Aponogeton rigidifolius	2.00
Aponogeton ulvaceus - the pure plant from Madagascar 10"-15" May-Oct.	7.50
Aponogeton undulatus	2 for 2.25
Barclaya longifolia - wavy, red-blue leaves	5.00
Eleocharis acicularis (Hair grass)	3 for 2.00
Four Leaf Clover (M. quadrifolia)	2 for 2.25
Gymnocoronis - resembles temple plant	2 for 2.25
Isoetes flaccida - good species for aquaria 7"-12"	2 for 2.25
*Isoetes malinverniana - very rare	15.00
Java Moss - the best aquarium moss	portion 4.00
*Lagenandra insignis (after July 1, 1978)	25.00
Lagenandra lancifolia - 8"-12" swordlike leaves, rare	5.00
Lagenandra meeboldi 8"-10"	10.00
Lagenandra ovata 8"-18" for large tanks	7.50
*Lagenandra thwaitesii 12" rich color, very rare	25.00
Micro Sword Plant (Lilaeopsis species) very good	portion 3.00
Microsorium pteropus - Java fern	6.00
Nomaphila stricta (Temple Plant)	2 for 2.25
Nomaphila augustifolia - forms rosettes of many leaves	2 for 2.25
Nuphar sagittifolium (Cape Fear Spatterdock)	3.00
Nymphae stellata - dwarf aquarium lily	2 for 2.75
Ophiopogon japonicus (Snakes Beard) - many tough leaves	2 for 2.25
Sagittaria chilensis - many broad leaves, good center plant	2 for 2.25
Sagittaria eatonii - rapid grower 5"-10"	3 for 2.00
Sagittaria natans - long narrow leaves 12"-18"	2 for 1.75
6 for 4.00	
Sagittaria pusilla - small narrow leaves 4"-8"	6 for 2.00
Sagittaria sinensis - broad leaves 10"-14"	2 for 1.75, 6 for 4.00
Sagittaria subulata - medium sized sagittaria	3 for 2.00, 6 for 3.50
Sagittaria species (Micro) - very small plants 3"-5"	12 for 2.00
Sumatra Fern - related to water sprite, fine lacy leaves	2.00
Vallisneria contortionist - tightly twisted	4 for 3.00
Vallisneria - corkscrew	8 for 2.00
Vallisneria - giant corkscrew, gets leaves 1" broad 12"-24"	2.00
Vallisneria - giant marbled	2 for 2.25
Vallisneria - giant	2 for 2.25
Vallisneria - giant red	2 for 2.25
Vallisneria - giant, extra wide, long species	3.00
Vallisneria spiralis - narrow, straight leaves	3 for 2.00
Water Sprite (C. thalictroides)	2 for 2.25
Water Wistaria (Synnema triflorum)	2 for 2.25

Cryptocorynes

C. affinis - rich green, mottled red underside 5"-6"	3 for 4.00
C. affinis brown variety 5"-8"	2.00
C. affinis (giant variety) - solid red underside 10"-15"	4.00
*C. alba - small plant, distinctive	6.00
C. albida #1 all green	5.00
C. albida #2 red and green	5.00
C. albida #3 all red	5.00
C. aponogetifolia (C. usteriana) - long, broad bullate leaves 12"-18"	5.00
C. auriculata - 4"-5", light green with dark blue veins, most handsome	2.50
C. balansae - long, bright green, crinkled leaves 7"-14"	2.00
3 for 5.00	
C. beckettii - brown leaves, purplish underside 4"-7"	3 for 4.00
extra large show	2.50

C. blaussii No. 1 - giant red plant, broad leaves 12"-18"	4.00
C. blaussii No. 2 - closely related to above but an even redder color 10"-18"	5.00
*C. bullosa - rare, very bullate, very distinctive 8"-12"	15.00
C. ciliata - broad leaf 7"-12"	3.50
C. ciliata - narrow leaf 7"-12"	4.00
C. cordata - broad green leaves 6"-8" (probably C. griffithii)	4.00
C. costata - brick red, wavy leaves	5.00
C. diderici - broad green, reddish underside	4.00
C. elliptica - oval leaves, serrated edge. Very good 6"-8" probably incorrect	5.00
C. grabowski - similar to C. blaussii but greener leaves - red underside	4.00
C. grandis - resembles purpurea somewhat	4.00
C. griffithii No. 1 - rare, slow growing. 6"	4.00
C. griffithii No. 2	4.50
C. johorensis incorrect - may be yet another variety of C. siamensis	4.00
C. legroi	
C. lingua - light green, fleshy, spoon shaped leaves 4"-6"	2.50
C. longicauda - mid green leaves 4"-6"	6.00
C. lucens - similar to C. nevillei but gets more leaves 4"	2.50
C. lutea - rare	5.00
C. minima - small, reddish brown 4"	3.50
C. nevillei - small, mid green 4"-5"	3 for 4.00
C. nurii - mottled brown, black, red leaves 5"-7"	4.00
C. parva - the smallest crypt; rare, like a dwarf nevillei 2"-4"	3 for 3.50
C. patchii - brown, crinkled edge 5"-6"	3 for 4.00
C. pontederifolia - green leaves, whitish veins (C. sarawacensis)	2.50
C. purpurata (may be a form of C. wendtii)	3.00
C. purpurea - beautiful dark green. The griffithii of commerce 6"-8"	4.00
C. purpurea dwarf - smaller and browner 4"-5"	3.50
C. retrospiralis - narrow, long wavy leaves, very good 8"-15"	2.00, 3 for 5.00
Large show	5.00
C. siamensis - wine red, broad leaves 5"-12"	4.00
C. siamensis "Greensleeve" - dark green variety, never gets red	4.00
C. spiralis	3.00
C. striolata No. 1 - very handsome, golden brown with broad black veins 5"-7"	7.00
C. striolata No. 2 - smaller with orange brown leaves, black veins 3"-5" (This is what some now call C. orange)	7.00
C. sulfurea (C. pontederifolia)	5.00
*C. tonkinensis - grass crypt.	10.00
*C. thwaitesii	10.00
*C. versteegii - extremely rare	25.00
C. walkerii - light green, similar to C. beckettii in shape 4"-7"	3 for 4.00
C. wendtii No. 1 - green leaves, 5"-7"	3 for 4.00
C. wendtii No. 2 - variegated brown, black, green 5"-7"	2.50
C. wendtii No. 3 - rich brown, rare 5"-7"	2 for 2.75
C. wendtii No. 4 - reddish brown	3 for 4.00
C. wendtii No. 5 like No. 2 but larger broader leaves	2 for 3.50
C. wendtii - giant species, green-brown	6.00
C. wendtii - giant species, chocolate brown	6.00
C. willisii - old time favorite 5"-7"	3 for 4.00, 6 for 7.00
C. zewaldae, red - small gem	3.00
C. zewaldae - small, green plant	3.00
*C. species "G" - small green-brown leaves	7.00
*C. species "H" - after July 1, 1978 C. evae? (C. saurilis - identified by Niels Jacobson) only 15 plants	10.00
*C. species "I" - after July 1978 C. zonata? very bullate small, broad red leaves (C. gasserii - named by Niels Jacobson) only 7 plants	10.00

<u>Snails (ship very well with the plants)</u>	
Black orb snail	8 for 1.00
Live bearing needle point	12 for 1.00
Marble snails - can live in brackish water	3 for 1.00
Mystery snail - black	4 for 1.50
Mystery snail - albino	4 for 1.50
Copenhagen Coral Red Orb snail	3 for 1.00

*The plants are priced by rarity and their interest to the occasional collector of rare items.

I had more than 100 C. striolata #1, did something foolish and lost them all - now I have none.

Robert A. Gasser
 QUALITY AQUARIUM PLANTS
 129 S.W. Linden Street
 Stuart, Florida 33494

Please ignore the prices - its better if we just trade plants.
